Summary

I am an International Media Computer Science student based in Berlin, currently looking to take my skills abroad for an internship. Through my studies, I have built a solid foundation in both frontend/backend development, 3D design and AI. My background in service environments has already made me able to withstand high pressure environments, a remarkably fast learner, and a collaborative team player. I am looking for an opportunity to grow and contribute.

Work experience

Service employee in bowling alley

Bowling World Germany GmbH
01/06/2026 – today | Berlin

Front-of-House Staff

ARTIS GmbH
01/10/2025 – 31/05/2026 | Berlin
