Summary

I am an International Media Computer Science student based in Berlin, currently looking to take my skills abroad for an internship. Through my studies, I have built a solid foundation in both frontend/backend development and 3D design. While I am eager to step into my first official tech role, my background in high-pressure service environments has already made me highly adaptable, a remarkably fast learner, and a collaborative team player. I am looking for a hands-on opportunity to grow and contribute.

Work experience

Service employee in bowling alley

Bowling World Germany GmbH

01/06/2026 – today | Berlin

Front-of-House Staff

ARTIS GmbH

01/10/2025 – 31/05/2026 | Berlin
